

Game Details

- **Equipment Needed:** Balls, Bin/Bucket, Foam Balls, Hoops, Polyspots
- **Grades:** 3-7
- **Skills:** Teamwork, Throwing
- **Game Type:** Group, Skill Practice

How to Play

Players work as a team to get all of the balls (popcorn kernels) into a bucket/ball bin (popcorn bowl) in the middle of the space by throwing them. Polyspots or hoops are spread out at varying distances around the bucket which players must throw from. Remind players they can only have one ball at a time and must throw from a different hoop/spot each time.

Modifications

- ▲ For a challenge, time the group to see how long it takes to get all the balls into the bucket, then try to beat that time in the second round
Throw using non-dominant hand
Change the size of the ball/bucket (smaller bucket is more challenging)
- ▼ Change the size of the ball/bucket to decrease the difficulty (bigger bucket is easier)
Place hoops/polyspots closer to the bucket to decrease the throwing challenge
